

Ronez
Suppliers of a
complete
range of
building
products

Ronez. Part of the Islands' Foundations.

Ronez is proud to serve the Channel Islands with locally produced, high quality aggregates, concrete, concrete block products, asphalt and contracting services.

Ronez

Suppliers of a complete range of building products

Aggregates

Crushed rock aggregates produced at our Channel Island quarries are supplied direct to the local construction industry, as well as forming the basis for our extensive range of construction products including ready mixed concrete, asphalt and concrete products.

We provide a range of crushed rock aggregates, sub-base material, secondary aggregates, sea defence material, recycled and single size aggregates.

Ready Mixed Concrete

Our ready-mixed concrete plants supply a huge range of products from standard, water resistant and "mesh replacement" fibre concrete for structural applications to floor screeds and foamed concrete.

Customers can choose to collect from the plants or have the concrete delivered by our fleet of mixer trucks. We also offer a concrete pumping service with boom pumps of up to 34 metres reach.
